

# **TECHNICAL DATASHEET**

## ON-DEMAND MANUFACTURING 2PURXK40MAT/IFHR

#### **Conveyor belt TPU Polyurethane BLUE** Complies with EU regulations for conveying foodstuff

### DESCRIPTION

- 2 2-ply polyester fabric
- **TPU** Polyurethane PUR
- XK Colour: dark blue RAL 5010
- Top cover thickness: 0,40 mm 40 Matte finish
- MAT
- Clear HR
- F 125N/mm fabric, flexible in weft
- HR "Rice grain" positive pattern, easy to clean

### MAIN TECHNICAL DATA

Top cover: Hardness 85 ShA Smooth, matte Total thickness: 2,30 mm ± 0,1 mm per ply Weight per m<sup>2</sup>: 2 600 g ± 10% Manufacturing width: 2 000 mm **Product temperature:** -40°C to +90°C Ambient temperature: -25°C to +60°C Type of support: Slider bed - Rollers -Coefficient of friction (on steel slider bed): 0,50 ± 20%

## **MECHANICAL STRENGTHS**

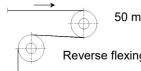

Tolerances: -10% +20%

Tensile strength: 180 N/mm Tensile force for 1% elongation (k1%): 14 N/mm

Maximum working tension: 20 N/mm

## **MINIMUM PULLEY DIAMETERS**

(at 20°C ambient temperature)

50 mm

Reverse flexing: 60 mm

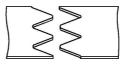

Working conditions:

- from 0°C to +8°C: add +50% on min. pulley diameter
- from -25°C to 0°C: add +100% on min. pulley diameter

The minimum pulley diameter is not related to the diameter needed to achieve a friction drive.

SPLICING OPTIONS

DS Round finger single splice 50 x 20 mm

DS/DEC Round finger overlapped splice

SF/PE Straight or Diagonal single overlap splice

### PRESS SETTINGS

These recommendations may vary according to the equipment and press heating svstem.

Top heating platen (± 10°C): 160°C

Bottom heating platen (± 10°C): 150°C

Welding Time (± 1 min): 2 min

Pressure (± 0,5 bar) : 2,0 bar

Reveyron does not recommend using foil for splicing.

## **FASTENERS / LACING**

Minibelt-A (steel, rivet) - Minibelt-I (inox, rivet) - Securi-P3 (inox, flat wires) - SL02 (inox, self-lock) -

## **BELT FABRICATION**

This belt material can be fitted with : V-guides / Profiles / Cleats / Corrugated sidewalls /

These data may change. The client remains liable for the proper choice of the belt material. Reveyron cannot be held responsible for any damage caused by improper use of the belt material.
